## **DETAILED ACTION**

### ***Allowable Subject Matter***

Claim 1-21 and 58-65 are allowed.

The following is an examiner's statement of reasons for allowance: The closest art known to the Examiner is listed on the PTO 892 form of record. The cited references do not anticipate or make obvious, *inter alia*, contacting the chemisorbed first species with a gaseous second precursor effective to react with the first species to form an oxide of a component of the first species monolayer, the *contacting at least in part resulting from flowing ozone to the deposition chamber, the ozone being at a temperature of at least 170 degrees Celcius at a location immediately before where it is emitted into the deposition chamber* as required by the present Claims. Therefore, the present Claims are allowable over the cited prior art.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
